INDICES

Volume 22 (1981)

Printed in Sweden by Almqvist & Wiksell, Uppsala 1982

CONTENTS OF VOLUME 22 (1981)—DIAGNOSIS

Myocardial infarction in dogs, demonstrated by non-enhanced computed tomography
C. G. SKIÖLDEBRAND, M. J. LIPTON, R. W. REDINGTON, W. H. BERNINGER, A. WALLACE and E. CARLSSON 1

Electrolytic destruction of tissue in the normal lung of the pig
L. SAMUELSSON and L. JÖNSSON 9

Angiography after temporary inhibition of blood flow followed by intraarterial 5-FU infusion in the treatment of liver metastases
U. TYLÉN, E. DAHL and P. FREDLUND 15

Ultrasound in the differential diagnosis of jaundice
P. J. LUKES, A. WIHED and O. ALMERSJÖ 25

Hypotonic duodenography and secretin-CCK test in the diagnosis of pancreatic disease
P. J. LUKES, P. ROLNY, A. E. NILSON and R. GAMKLOU 31

Comparison of image intensifier photofluorography and full-size radiography in abdominal angiography
T. AAKHUS, L. LANTTO, F. KOLMANNSKOG and A. WINTER 39

Renal artery blood flow assessed by video dilution technique before and after percutaneous transluminal angioplasty
B. M. T. LANTZ, D. P. LINK, E. L. LEWIS, J. M. FOERSTER and G. LEE 49

Effect of catheter flush fluids on blood coagulation and aggregation of platelets
M. DAHLBORN and D. NYMAN 59

Prevention of crackle in double contrast examinations of the colon
A. DE CARVALHO and B. MADSEN 63

Perceptibility of experimental and clinical lesions in the CT image with and without image processing
A. HEMMINGSSON, B. JUNG, L. NÄSLUND and C. YTTERBERGH 67

Discriminative power of Larsen's grading system for assessing the course of rheumatoid arthritis
A. DE CARVALHO 77

Bilateral dysplasia of the neck of scapula and associated anomalies
H. PETTERSSON 81

Temporomandibular joint space in children without joint disease
T. A. LARHEIM 85

Measurement of the shortening of the femur following immobilization of intracapsular hip fractures with the Deyerle device
P. EDHOLM and J. THORLING 89

Right retrograde brachial cerebral angiography with simultaneous compression of the left carotid artery
K. ERICSON and M. MOSSKIN 97

Distribution of the extrahepatic uptake in liver diseases as recorded by scintigraphy
L. FRIMAN 103

Angiographic measurement of coronary blood flow by video dilution technique
J. M. FOERSTER, B. M. T. LANTZ, J. W. HOLCROFT, D. P. LINK and D. T. MASON 121

Electrolysis and surgery in experimental tumours in the rat
L. SAMUELSSON 129

Evaluation of the anode and cathode for transcatheter electrocoagulation
B. HIRSCHFELD, D. S. MCALISTER, S. PIZZO and W. M. THOMPSON 133

Doppler evaluation of blood flow in therapeutic arteriovenous fistulas
L. FORSBERG 141

Hypotonic duodenography and endoscopic retrograde pancreatography in the diagnosis of pancreatic disease
P. J. LUKES, P. ROLNY, A. E. NILSON and R. GAMKLOU 145

Cholangiographic findings in ulcerative colitis
F. KOLMANNSKOG, T. AAKHUS, O. FAUSA, E. SCHRUMPF, S. RITLAND, E. GJONE and K. ELGJO 151

Lymphomatous involvement of intrahepatic and extrahepatic biliary ducts—PTC and ERCP findings
A. SEVERINI, M. BELLOMI, G. COZZI, P. PIZZETTI and P. SPINELLI 159

Gallbladder emptying with ceruletide in oral cholecystography
D. DAVIDSEN and J. JØRGENSEN 165

Colonic mucin secretion related to non-contractile motility in the dog
C. G. SKIÖLDEBRAND, A. R. MARGULIS, R. S. HATTNER, J. HARTMEYER and J. A. STOUGHTON 171

Course of the inferior vena cava on lateral films exposed in different positions
H. H. LIEN and S. J. BAKKE 177

Radiographic screening for breast carcinoma—I—Program and primary findings in 45–69 year old women
I. ANDERSSON 185

Comparison between three radiographic techniques for examination of the temporomandibular joints in juvenile rheumatoid arthritis
T. A. LARHEIM 195

Axial projection of the humeroscapular joint
M. FAGERLUND and O. AHLGREN 203

Book reviews 207

Measurement of coronary reactive hyperemia during clinical angiography by video dilution technique
J. M. FOERSTER, D. P. LINK, B. M. T. LANTZ, G. LEE, J. W. HOLCROFT and D. T. MASON 209

Rotating step-wedge technique for extraction of luminal cross-sectional area information from single plane coronary cineangiograms
J. R. SPEARS 217

Radiographic screening for breast carcinoma—II—Prognostic considerations on the basis of a short-term follow-up
I. ANDERSSON 227
Angiography in pancreatic disease reevaluated—A prospective and blind evaluation
B. SIGSTEDT, E. BOIJSEN, A. LUNDERQUIST and U. TYLÉN 235
Ultrasound findings in renal transplant rejection
S. Z. H. JAFRI, J. V. KAUDE and P. G. WRIGHT 245
Antegrade spermatic phlebography in the diagnosis of metastases from testicular tumors
L. FORSBERG, L. EKELUND, A. MATTIASSON and A. M. OLSSON 255
Effervescent agents in the double contrast examination of the stomach
P. VIRKKUNEN and J. KREULA 261
Ultrasound and hypotonic duodenography in biliary obstruction
P. J. LUKES, A. WIHED and O. ALMERSJÖ 267
Measurement of tibial torsion by computer tomography
H.-H. JEND, M. HELLER, M. DALLEK and H. SCHOETTLE 271
Radiographic abnormalities of the temporomandibular joint in children with juvenile rheumatoid arthritis
T. A. LARHEIM, K. DALE and L. TVEITO 277
Computed tomography and hypocycloid tomography in lesions of the nose, paranasal sinuses and nasopharynx
A. M. NEHEN, P. ILLUM, E. RATJEN, F. ILLUM and O. ELBRØND 285
Film quality in image intensifier photofluorography
A. WIHED and S. REICHMANN 289
Image distortion in rotational panoramic radiography—I—General considerations
G. TRONJE, U. WELANDER, W. D. MCDAVID and C. R. MORRIS 295
Book reviews 301
Assessment of renal parenchymal thickness in normal children
I. CLAËSSON, B. JACOBSSON, T. OLSSON and H. RINGERTZ 305
Early detection of nephropathy in childhood urinary tract infection
I. CLAËSSON, B. JACOBSSON, U. JODAL and J. WINBERG 315
Kidney size compared with vertebral height—Importance of possible variations in normal values
W. SIMPSON, J. D. CRANAGE and J. A. FURNESS 321
Long-time effect of large vesicoureteral reflux with or without urinary tract infections
I. WIKSTAD, A. APERIA, O. BROBERGER and G. LÖHR 325
Radiology of the preputial space in childhood
G. THEANDER 331
Radiation doses to children at urologic radiography
M. GUSTAFSSON and W. MORTENSSON 337
Ultrasound examination of the kidney after Politano-Leadbetter ureteroneocystostomy
L. FORSBERG, G. MALMFORS, W. MORTENSSON and T. WHITE 349
Radiologic and prognostic aspects of Wilms' tumour
J. ANDRESEN and V. STEENSKOV 353
Metrizamide and metrizoate for cardioangiography in infants and children
G. STAKE, P. G. BJØRNSTAD, T. NORDSHUS and S. J. SØRLAND 359
Supernumerary soleus muscle
L. DANIELSSON and G. THEANDER 365
Congenital malformations associated with maternal osteodysplasty—A new malformation complex
G. THEANDER and O. EKBERG 369
Traumatic dislocation of the radial head at birth
L. G. DANIELSSON and G. THEANDER 379
Book reviews 383
Positron emission tomography with ^{68}Ga-EDTA compared with transmission computed tomography in the evaluation of brain infarcts
K. ERICSON, M. BERGSTRÖM, L. ERIKSSON, A. HATAM, T. GREITZ, C.-E. SÖDERSTRÖM and L. WIDÉN 385
Computed tomography in the evaluation of the supraclinoid arteries in suprasellar pituitary gland tumors
P. HJ. NAKSTAD and I. O. SKALPE 399
Double blood supply of bronchogenic carcinoma from multiple arteries
C. HELLEKANT and K. JONSSON 403
Radiographic screening for breast carcinoma—III—Appearance of carcinoma and number of projections to be used at screening
I. ANDERSSON 407
Ultrasound examination and cholescintigraphy in cholestasis
S. BONDESTAM, M. TAAVITSAINEN, S. JÄPPINEN and O. KORHOLA 421
Proteinuria following nephroangiography—IX—Chemical and morphologic analysis in dogs
S. HOLTÅS, Å. BILLSTRÖM and L. TEJLER 427
Computer tomography of ovarian dermoid cysts
C.-G. CEDERLUND, S. KARLSSON and U. NYMAN 435
Methods for assessing fixation and residual angulation in intracapsular hip fractures
J. THORLING and P. EDHOLM 441
Image distortion in rotational panoramic radiography—II—Vertical distances
G. TRONJE, S. ELIASSON, P. JULIN and U. WELANDER 449
Boundaries in the radiographic image—I—General principles for perception of boundaries and their application to the image
P. EDHOLM 457
Course of the facial nerve in congenital ear deformities—Tomographic demonstration
P. D. PHELPS and G. A. S. LLOYD 475
Facial bone scintigraphy—VII—Diagnosis of malignant lesions in the mandible
H. F. BERGSTEDT, M. G. LIND and C. SILFVERSWÄRD 485
Radiographic temporomandibular joint abnormality

in adults with micrognathia and juvenile rheumatoid arthritis
T. A. LARHEIM, H. R. HAANÆS and K. DALE . . 495
Radiologic evaluation of synovectomy in rheumatoid arthritis
A. DE CARVALHO, H. GRAUDAL, B. JØRGENSEN and M. VÆTH 505
Book reviews 511
Computed tomography of epidural hematomas—Association with intracranial lesions and clinical correlation
K. ERICSON and S. HÅKANSSON 513
Localisation of atheromatosis and calcification in the carotid bifurcation—A post mortem radiographic investigation
J. SUNDBERG 521
Effect of the normal pericardium on the left ventricular diastolic pressure-volume relationship
H. G. RINGERTZ, G. A. MISBACH and J. V. T. TYBERG 529
Complications of coronary angiography
U. ERIKSON, G. HELMIUS and S. SAWADA . . . 535
Heart volume and its relation to age—Aspects of the technique
U. ERIKSON and L. BÄCKLUND 541
Ultrasound and computer tomography in the evaluation of focal liver disease
C. BARTOLOZZI, S. CIATTI, E. LUCARELLI, N. VILLARI and R. DE DOMINICIS 545
Ultrasound guided fine-needle biopsy of mass lesions affecting the hepatobiliary tract
S. BONDESTAM, S.-E. JANSSON, M. TAAVITSAINEN and C.-G. STANDERTSKJÖLD-NORDENSTAM . . . 549
Preoperative embolization of renal tumours using balloon catheters
R. JENSEN and J. NILSSON 553
Dilatation of experimental renal artery stenosis by balloon catheter
L. EKELUND, N. JONSSON, E. LINDSTEDT, H. STRIDBECK and S.-B. LUNDQUIST 561
Percutaneous transluminal angioplasty of renal artery stenosis
R. M. PAOLINI, M. MARCONDES, A. WIDMAN, E. SABBAGA, H. BERNARDES SILVA, I. NISSENSWEIG and A. DE ALMEIDA MAGALHÃES 571
Thrombosis after elective phlebography as demonstrated with the ^{125}I-fibrinogen test
P. KRISTIANSEN, S.-E. BERGENTZ, D. BERGQVIST and G. NYLANDER 577
Thermography as a screening method in the diagnosis of deep venous thrombosis of the leg
J. WOJCIECHOWSKI and B. F. ZACHRISSON . . . 581
Image distortion in rotational panoramic radiography—III—Inclined objects
G. TRONJE, U. WELANDER, W. D. MCDAVID and C. R. MORRIS 585
Radiographic appearance of the normal temporomandibular joint in newborns and small children
T. A. LARHEIM 593
Angiography of benign bone tumors
S. LAURIN 601
Facial bone scintigraphy—VIII—Diagnosis of malignant lesions in the maxillary, ethmoidal and palatal bones
H. F. BERGSTEDT and M. G. LIND 609
Insufficiency fractures in the tibial condyles in elderly individuals
G. BAUER, M. GUSTAFSSON, W. MORTENSSON and O. NORMAN 619
Book reviews 623
Computed tomography, angiography and ultrasound in staging of renal carcinoma
W. KARP, L. EKELUND, G. OLAFSSON and A. OLSSON 625
Computer tomography and angiography in renal angiomyolipoma
F. KOLMANNSKOG, A. KOLBENSTVEDT, P. HJ. NAKSTAD and T. AAKHUS 635
Renal flow response to contrast medium measured by video dilution technique
D. P. LINK, C. J. STANTON and B. M. T. LANTZ 641
Intravesical fat emulsion at computed tomography of bladder tumours
N.-E. AHLBERG, T. BERLIN, B. CALISSENDORFF, L. COLLSTE, G. GUSTAVSSON and H. WIJKSTRÖM 645
Diagnostic value of computer tomography in chronic pancreatitis—A comparison with current diagnostic tests
F. KOLMANNSKOG, E. SCHRUMPF, A. BERGAN and S. LARSEN 649
Diagnosis of endocrine gastrointestinal tumours
A. HEMMINGSSON, P. G. LINDGREN, L. E. LÖRELIUS and K. ÖBERG 657
Percutaneous cytodiagnosis of abdominal masses by ultrasound guided fine needle aspiration biopsy
B. PORTER, W. KARP and L. FORSBERG 663
Computed tomography of recurrent rectal carcinoma
B. ADALSTEINSSON, B. GLIMELIUS, S. GRAFFMAN, A. HEMMINGSSON, L. PÅHLMAN and Å. RIMSTEN 669
Experiments with ioxaglate (Hexabrix) in cardioangiography and peripheral angiography
U. ERIKSON and A. HEMMINGSSON 673
Dynamic ultrasound scans—A visual system for identification
H. H. HOLM, G. V. BREUM and N. DREIJER . . 677
Validation of geometric methods for estimating segmental myocardial motion of the left ventricle at cineangiography
M. J. LIPTON, H. G. RINGERTZ, P. L. DAVIS and E. CARLSSON 681
Experimental stand for chest radiography in rabbits
L. SAMUELSSON 687
Image distortion in rotational panoramic radiography—IV—Object morphology; outer contours
G. TRONJE, U. WELANDER, W. D. MCDAVID and C. R. MORRIS 689
Radiographic evaluation of fracture healing after rigid plate fixation—Experiments in the rabbit
P. PAAVOLAINEN, E. KARAHARJU, P. SLÄTIS and P. WARIS 697
Temporomandibular joint abnormalities in rheuma-

toid arthritis—Comparison of different radiographic methods
T. A. LARHEIM, L. TVEITO, K. DALE and A. F. RUUD 703
Juxta-articular erosions and calcifications in patients with chronic renal failure
J. ANDRESEN and H. E. NIELSEN 709
Metacarpal bone mass in normal adults and in patients with chronic renal failure
J. ANDRESEN, H. E. NIELSEN, T. E. HANSEN and L. BOLVIG 715

Neuroradiology

Right retrograde brachial cerebral angiography . . 97
Positron emission tomography with ^{68}Ga-EDTA compared with transmission computed tomography in brain infarcts 385
Computed tomography of supraclinoid arteries in suprasellar pituitary gland tumors 399
Computed tomography of epidural hematomas . . . 513

Head and neck

Temporomandibular joint space in children without joint disease 85
Three radiographic techniques for examination of temporomandibular joints in juvenile rheumatoid arthritis 195
Temporomandibular joint in children with juvenile rheumatoid arthritis 277
Computed tomography and hypocycloid tomography in lesions of the nose, paranasal sinuses and nasopharynx 285
Course of facial nerve in congenital ear deformities 475
Facial bone scintigraphy—VII—Malignant lesions in the mandible 485
Temporomandibular joint abnormality in adults with micrognathia and juvenile rheumatoid arthritis . 495
Normal temporomandibular joint in newborns and small children 593
Facial bone scintigraphy—VIII—Malignant lesions in the maxillary, ethmoidal and palatal bones . . 609
Temporomandibular joint abnormalities in rheumatoid arthritis 703

Chest (excl. heart)

Electrolytic destruction of tissue in the normal lung of the pig 9
Screening of breast carcinoma—I 185
Screening of breast carcinoma—II 227
Double blood supply of bronchogenic carcinoma from multiple arteries 403
Screening for breast carcinoma—III 407

Heart and vessels (incl. lymphatic vessels)

Myocardial infarction in dogs, demonstrated by non-enhanced computed tomography 1
Angiography after temporary inhibition of blood flow followed by intraarterial 5-FU infusion for liver metastases 15
Image intensifier photofluorography and full-size radiography in abdominal angiography 39
Renal artery blood flow assessed by video dilution technique before and after percutaneous transluminal angioplasty 49
Effect of catheter flush fluids on blood coagulation and aggregation of platelets 59
Right retrograde brachial cerebral angiography . . 97
Coronary blood flow measured by video dilution technique 121
Doppler evaluation of blood flow in therapeutic arteriovenous fistulas 141
Course of inferior vena cava on lateral films 177
Coronary reactive hyperemia during clinical angiography measured by video dilution technique . . 209
Rotating step-wedge technique for extraction of luminal cross-sectional area information from single plane coronary cineangiograms 217
Angiography in pancreatic disease reevaluated . . 235
Antegrade spermatic phlebography in the diagnosis of metastases from testicular tumors 255
Metrizamide and metrizoate for cardioangiography in infants and children 359
Double blood supply of bronchogenic carcinoma from multiple arteries 403
Proteinuria following nephroangiography—IX—Chemical and morphologic analysis in dogs . . . 427
Localisation of atheromatosis and calcification in the carotid bifurcation—Post mortem investigation . 521
Effect of the normal pericardium on the left ventricular diastolic pressure–volume relationship 529
Complications of coronary angiography 535
Heart volume and its relation to age 541
Thrombosis after elective phlebography as demonstrated with the ^{125}I-fibrinogen test 577
Thermography in the diagnosis of deep venous thrombosis of the leg 581
Angiography of benign bone tumors 601
Computed tomography, angiography and ultrasound in staging of renal carcinoma 625
Computer tomography and angiography in renal angiomyolipoma 635
Experiments with ioxaglate (Hexabrix) in cardioangiography and peripheral angiography 673
Geometric methods for estimating segmental myocardial motion of the left ventricle at cineangiography 681

Gastrointestinal radiology

Angiography after temporary inhibition of blood flow followed by intraarterial 5-FU infusion for liver metastases 15
Ultrasound in the differential diagnosis of jaundice 25
Hypotonic duodenography and secretin-CCK in the diagnosis of pancreatic disease 31
Image intensifier photofluorography and full-size radiography in abdominal angiography 39
Prevention of crackle in double contrast examinations of the colon 63
Extrahepatic uptake in liver diseases as recorded by scintigraphy 103
Hypotonic duodenography and endoscopic retrograde pancreatography 145
Cholangiographic findings in ulcerative colitis . . . 151
Lymphomatous involvement of intrahepatic and extrahepatic biliary ducts—PTC and ERCP findings 159

Gallbladder emptying with ceruletide in oral cholecystography 165
Colonic mucin secretion related to non-contractile motility in the dog 171
Angiography in pancreatic disease reevaluated . . 235
Effervescent agents in the double contrast examination of the stomach 261
Ultrasound and hypotonic duodenography in biliary obstruction 267
Ultrasound examination and cholescintigraphy in cholestasis 421
Ultrasound and computer tomography in the evaluation of focal liver disease 545
Ultrasound guided fine-needle biopsy of mass lesions affecting the hepatobiliary tract 549
Value of computer tomography in chronic pancreatitis 649
Endocrine gastrointestinal tumours 657
Percutaneous cytodiagnosis of abdominal masses by ultrasound guided fine needle aspiration biopsy . 663
Computed tomography of recurrent rectal carcinoma 669

Urogenital radiology

Renal artery blood flow assessed by video dilution technique before and after percutaneous transluminal angioplasty 49
Ultrasound findings in renal transplant rejection . . 245
Antegrade spermatic phlebography in the diagnosis of metastases from testicular tumors 255
Assessment of renal parenchymal thickness in normal children 305
Early detection of nephropathy in childhood urinary tract infection 315
Kidney size compared with vertebral height 321
Long-time effect of large vesicoureteral reflux with or without urinary tract infections 325
Radiology of the preputial space in childhood . . . 331
Radiation doses to children at urologic radiography 337
Ultrasound examination of the kidney after Politano-Leadbetter ureteroneocystostomy 349
Radiologic and prognostic aspects of Wilms' tumour 353
Proteinuria following nephroangiography—IX—Chemical and morphologic analysis in dogs . . . 427
Computer tomography of ovarian dermoid cysts . . 435
Preoperative embolization of renal tumours using balloon catheters 553
Dilatation of experimental renal artery stenosis by balloon catheter 561
Percutaneous transluminal angioplasty of renal artery stenosis 571
Computed tomography, angiography and ultrasound in staging of renal carcinoma 625
Computer tomography and angiography in renal angiomyolipoma 635
Renal flow response to contrast medium measured by video dilution technique 641
Intravesical fat emulsion at computed tomography of bladder tumours 645
Juxta-articular erosions and calcifications in chronic renal failure 709

Bones and joints

Discriminative power of Larsen's grading system for assessing the course of rheumatoid arthritis . . . 77
Bilateral dysplasia of the neck of scapula 81
Temporomandibular joint space in children without joint disease 85
Measurement of shortening of femur following immobilization of intracapsular hip fractures with the Deyerle device 89
Three radiographic techniques for examination of temporomandibular joints in juvenile rheumatoid arthritis 195
Axial projection of the humeroscapular joint 203
Measurement of tibial torsion by computer tomography 271
Temporomandibular joint in children with juvenile rheumatoid arthritis 277
Supernumerary soleus muscle 365
Congenital malformations associated with maternal osteodysplasty 369
Traumatic dislocation of the radial head at birth . . 379
Methods for assessing fixation and residual angulation in intracapsular hip fractures 441
Temporomandibular joint abnormality in adults with micrognathia and juvenile rheumatoid arthritis . . 495
Evaluation of synovectomy in rheumatoid arthritis . 505
Normal temporomandibular joint in newborns and small children 593
Angiography of benign bone tumors 601
Insufficiency fractures in the tibial condyles in elderly individuals 619
Fracture healing after rigid plate fixation in the rabbit 697
Temporomandibular joint abnormalities in rheumatoid arthritis 703
Juxta-articular erosions and calcifications in chronic renal failure 709
Metacarpal bone mass in normals and in chronic renal failure 715

Computed tomography

Myocardial infarction in dogs, demonstrated by non-enhanced computed tomography 1
Perceptibility of experimental and clinical lesions in the CT image with and without image processing 67
Measurement of tibial torsion by computer tomography 271
Computed tomography and hypocycloid tomography in lesions of the nose, paranasal sinuses and nasopharynx 285
Supernumerary soleus muscle 365
Positron emission tomography with ^{68}Ga-EDTA compared with transmission computed tomography in brain infarcts 385
Computed tomography of supraclinoid arteries in suprasellar pituitary gland tumors 399
Computer tomography of ovarian dermoid cysts . . 435
Computed tomography of epidural hematomas . . . 513
Ultrasound and computer tomography in the evaluation of focal liver disease 545
Computed tomography, angiography and ultrasound in staging of renal carcinoma 625

Computer tomography and angiography in renal angiomyolipoma 635
Intravesical fat emulsion at computed tomography of bladder tumours 645
Value of computer tomography in chronic pancreatitis 649
Endocrine gastrointestinal tumours 657
Computed tomography of recurrent rectal carcinoma 669

Ultrasound

Ultrasound in the differential diagnosis of jaundice 25
Doppler evaluation of blood flow in therapeutic arteriovenous fistulas 141
Ultrasound findings in renal transplant rejection . . 245
Ultrasound and hypotonic duodenography in biliary obstruction 267
Ultrasound examination of the kidney after Politano-Leadbetter ureteroneocystostomy 349
Ultrasound examination and cholescintigraphy in cholestasis 421
Ultrasound and computer tomography in the evaluation of focal liver disease 545
Ultrasound guided fine-needle biopsy of mass lesions affecting the hepatobiliary tract 549
Computed tomography, angiography and ultrasound in staging of renal carcinoma 625
Percutaneous cytodiagnosis of abdominal masses by ultrasound guided fine needle aspiration biopsy . 663
Dynamic ultrasound scans—Visual system for identification 677

Nuclear radiology

Extrahepatic uptake in liver diseases as recorded by scintigraphy 103
Positron emission tomography with ^{68}Ga-EDTA compared with transmission computed tomography in brain infarcts 385
Facial bone scintigraphy—VII—Malignant lesions in the mandible 485
Thrombosis after elective phlebography as demonstrated with the ^{125}I-fibrinogen test 577
Facial bone scintigraphy—VIII—Malignant lesions in the maxillary, ethmoidal and palatal bones . . 609

Pediatric radiology

Temporomandibular joint space in children without joint disease 85
Three radiographic techniques for examination of temporomandibular joints in juvenile rheumatoid arthritis 195
Temporomandibular joint in children with juvenile rheumatoid arthritis 277
Assessment of renal parenchymal thickness in normal children 305
Early detection of nephropathy in childhood urinary tract infection 315
Kidney size compared with vertebral height 321
Long-time effect of large vesicoureteral reflux with or without urinary tract infections 325
Radiology of the preputial space in childhood . . . 331
Radiation doses to children at urologic radiography 337
Ultrasound examination of the kidney after Politano-Leadbetter ureteroneocystostomy 349
Radiologic and prognostic aspects of Wilms' tumour 353
Metrizamide and metrizoate for cardioangiography in infants and children 359
Supernumerary soleus muscle 365
Congenital malformations associated with maternal osteodysplasty 369
Traumatic dislocation of the radial head at birth . . 379
Normal temporomandibular joint in newborns and small children 593

Experimental radiology

Myocardial infarction in dogs, demonstrated by non-enhanced computed tomography 1
Electrolytic destruction of tissue in the normal lung of the pig 9
Perceptibility of experimental and clinical lesions in the CT image with and without image processing 67
Electrolysis and surgery in experimental tumours in the rat 129
Colonic mucin secretion related to non-contractile motility in the dog 171
Proteinuria following nephroangiography—IX—Chemical and morphologic analysis in dogs . . . 427
Dilatation of experimental renal artery stenosis by balloon catheter 561
Experimental stand for chest radiography in rabbits 687
Fracture healing after rigid plate fixation in the rabbit 697

Contrast media

Prevention of crackle in double contrast examinations of the colon 63
Effervescent agents in the double contrast examination of the stomach 261
Metrizamide and metrizoate for cardioangiography in infants and children 359
Renal flow response to contrast medium measured by video dilution technique 641
Intravesical fat emulsion at computed tomography of bladder tumours 645
Experience with ioxaglate (Hexabrix) in cardioangiography and peripheral angiography 673

Therapeutic radiology

Angiography after temporary inhibition of blood flow followed by intraarterial 5-FU infusion for liver metastases 15
Renal artery blood flow assessed by video dilution technique before and after percutaneous transluminal angioplasty 49
Evaluation of the anode and cathode for transcatheter electrocoagulation 133
Preoperative embolization of renal tumours using balloon catheters 553
Dilatation of experimental renal artery stenosis by balloon catheter 561
Percutaneous transluminal angioplasty of renal artery stenosis 571

Technique

Image intensifier photofluorography and full-size radiography in abdominal angiography 39
Renal artery blood flow assessed by video dilution technique before and after percutaneous transluminal angioplasty 49
Effect of catheter flush fluids on blood coagulation and aggregation of platelets 59
Perceptibility of experimental and clinical lesions in the CT image with and without image processing 67
Measurement of shortening of femur following immobilization of intracapsular hip fractures with the Deyerle device 89
Coronary blood flow measured by video dilution technique 121
Evaluation of the anode and cathode for transcatheter electrocoagulation 133
Coronary reactive hyperemia during clinical angiography measured by video dilution technique . . 209
Rotating step-wedge technique for extraction of luminal cross-sectional area information from single plane coronary cineangiograms 217
Film quality in image intensifier photofluorography 289
Image distortion in rotational panoramic radiography—I 295
Image distortion in rotational panoramic radiography—II 449
Boundaries in the radiographic image—I 457
Image distortion in rotational panoramic radiography—III 585
Renal blood flow response to contrast medium measured by video dilution technique 641
Percutaneous cytodiagnosis of abdominal masses by ultrasound guided fine needle aspiration biopsy . 663
Dynamic ultrasound scans—Visual system for identification 677
Geometric methods for estimating segmental myocardial motion of the left ventricle at cineangiography 681
Image distortion in rotational panoramic radiography—IV 689

Book reviews
